

ARCA announces Charity Week 2018

Last year, the Association held their second Charity Week dedicated to fundraising for two charities. A lot of ARCA and ATaC members and their staff supported the Charity Week by donating, biking, skydiving, baking (and eating), the total funds raised were fantastic! This year, get involved during **10th - 14th September**, so that as a team we can continue to help raise funds for charities that support people suffering from life-limiting conditions.

Whether you run, walk, cycle, bake a cake or hold a raffle, all participation is fantastic and all donations count. There are many events you can take part in, either as an individual or as a team ... a bike ride, cake sale, walk, or muddy fun run! You can make a difference to those suffering with an asbestos related cancer and a life-limiting illness.

Let us know what your plans are ...

September may seem ages away ... but it will be here before you know it! Start thinking about how you can get involved and let us know your plans.

Wigan & Leigh Hospice

Thank you for your support!
