

ARCA announces Charity Week 2017

Last year, for the first time, the Association held a Charity Week dedicated to fundraising for Mesothelioma UK and Indee Rose Trust. A lot of ARCA and ATaC members and their staff supported the Charity Week by donating, running, biking, baking (and eating), climbing and getting muddy ... and the total funds raised was fantastic.

This year, get involved during 11th – 15th September, so that as a team we can continue to help these charities support men, women and children suffering from life limiting conditions.

Whether you run, walk, cycle, bake a cake or hold a raffle, all participation is fantastic and all donations count.

There are many events you can take part in, either as an individual or as a team ... a bike ride, cake sale, countryside walk, a football match.

Have fun while raising money.

You can make a difference to those suffering with an asbestos related cancer and to children with a life limiting tumour.

Let us know what your plans are ...

September may seem ages away... but it will be here before you know it!

Start thinking about how you can get involved and let us know your plans.

Thank you for your support
