

ARMI Skills Cards Asbestos Removal Operatives

ARCA operates the ARMI Skills Card Scheme, which is a nationally recognised construction skills card scheme carrying the CSCS logo.

The Asbestos Removal Management Institute (ARMI) is the Sector Representative Organisation (SRO) for the Asbestos Management Industry. All Partner Card Schemes display the CSCS logo and are based on the same standard as CSCS, often requiring the card holder to gain a nationally recognised qualification and pass a Health and Safety Test, though they may also have additional requirements.

By carrying the CSCS logo these cards provide a means to verify identity and that the operative has the required qualifications, training and experience to carry out asbestos removal work on a construction site.

All cards issued by ARCA use smart technology and contain an electronic chip. This can be used to check the identity of the card holder and, for example, when ARCA updates a card holders' record with 'successfully completed operative annual refresher' this will automatically update the chip in the card.

Asbestos Removal Management Institute (ARMI)
For information concerning your CSCS card please contact:

Asbestos Removal Contractors Association (ARCA)
