

ARMI Skills Cards Asbestos Removal Operatives, Supervisors and Managers

ARCA operates the ARMI Skills Card Scheme, which is a nationally recognised construction skills card scheme carrying the CSCS logo.

The Asbestos Removal Management Institute (ARMI) is the Sector Representative Organisation (SRO) for the Asbestos Management Industry. All Partner Card Schemes display the CSCS logo and are based on the same standard as CSCS, often requiring the card holder to gain a nationally recognised qualification and pass a Health and Safety Test, though they may also have additional requirements.

By carrying the CSCS logo these cards provide a means to verify identity and that the asbestos removal operative/supervisor/manager has the necessary qualifications, training and experience to carry out the type of work they need to on a construction site.

All cards issued by ARCA use smart technology and contain an electronic chip. This can be used to check the identity of the card holder and, for example, when ARCA updates a card holders' record this will automatically update the chip in the card.

Virtual smartcards can also be issued to applicants, at no additional cost, if the applicant provides a personal mobile number and/or email address on the application form. A virtual smartcard is a smartcard that is stored in an app on the card holders' smartphone or tablet (this can be used instead of or as well as a physical card).

ARCA offers forms for employers to apply for multiple cards and an application form for an individual operative, supervisor or manager. These along with information on the ARCA ARMI Skills Card Scheme is available at www.arca.org.uk
